REFGRABIT - CAPTURE DATA FROM A WEBSITE

1. Open a webpage that you want to enter into your RefWorks account.
2. Click on the RefGrab-It bookmarklet that you moved to your Bookmarks toolbar.

3. A RefGrab-It window will appear listing the website you are moving to RefWorks.
4. Click Show Details to open up a new screen revealing the data that RefGrab-It captured from the website.
5. To transfer the data on the webpage into your RefWorks account, check the box to the left of the title and click Import to RefWorks.
6. Your data has now been entered into RefWorks:
   a. To access the record, Switch over to RefWorks and click View Last Imported Folder (as with any other imported record).
   b. Open up the full record and see if any information needs to be added, deleted or changed (RefGrab-It is a workaround and does not necessarily capture all available data)
   (1.) Click on the edit button to make necessary changes.
